### Accessories in option:

- Wristbands
- Safety pin
- Spare lock cylinders
- Replacement keys
- Key numbering set

### **MATERIAL:**

Made from cold rolled steel, the construction is all welded without bolts. All burrs are removed to avoid injuries.

### **FRAME:**

Door frames are constructed of 16 gauge steel. The right frame is folded in order to form a rigid box full height to receive the money. The left frame is folded to form a triple edge at 90 degrees. Corner joints are mig welded giving a high rigidity to the locker.

### **SIDES AND BACK:**

The sides and the back are of 24 gauge steel.

### **DOOR:**

The door is made of 16 gauge steel and flush fitted into the frame and has a full height steel reinforcement. Stainless steel door closure and handle.

### **HINGE:**

Extra strong five knuckle 14 gauge spring-loaded self-closing hinge has 5 articulations strongly welded to the frame et riveted to the door to ensure durability.

### **BOTTOM:**

The bottom is made of 22 gauge galvanized steel and forms a door stopping full width.

### **SHELF:**

The shelf is made of 22 gauge steel.

### **HOOKS:**

Hooks are made of 1/2" x 1/8" flat steel and are strongly welded to the inside panel (1 in the center and two on the side panels). The ends of the hooks are round and polished.

### **COIN LOCK:**

Stainless steel lock comes with a master control cylinder (black key) and a patron cylinder (orange key for the customer). The coin slot is concealed by the door pull when the door is locked.

### **COIN COLLECTOR:**

The cash box is made of stainless steel and is located in the lower part of the frame.

### **FINISHED SURFACE:**

Steel is polished until complete disappearance of any imperfection on surface. Steel is cleaned and protected from corrosion using a phosphate treatment. Tough baked enamel finish (lust 40-45%).
